OUR STORY

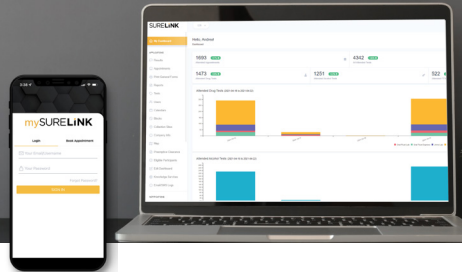

SureHire began our journey in 2004 as a small physiotherapy team assessing and treating those who had been injured on the job site.

Today, we're a leading expert working with thousands of clients who, like us, are seeking a better system of risk prevention, early intervention, and a deeper understanding of worksite hazards and risk management.

POPULAR TESTS

SURELiNK

OUR CLIENT ADVANTAGE

Our secure portal, SureLink, lets clients book appointments, view results, track course progress and much more!

Our user interface makes navigation simple and with customizable features that allow for adjustments based on your company's needs.
